Response to Amendment

The amendment filed January 4, 2002 proposes amendments to claims 7, 15, and 18 that do not comply with 37 CFR 1.173(b), which sets forth the manner of making amendments in reissue applications. See 37 CFR 1.121 (b) (2) (i) (C) also. In a reissue application, all amendments must be made with respect to the claims in the patent, not the last amended version of the claims of last amendment as is common in non-provisional application practice. Therefore, any subsequent amendment, to a claim must also show the insertions or deletions of the prior amendments as though they had not been previously made. For example, in preliminary amendment filed January 4, 2002, in claim 7, on line 9, two amendments were made. These amendments must also be shown by underlining and bracketing in the amendments to claim 7 filed January 4, 2002.

A supplemental paper correctly amending the reissue application is required.
